

## ppm+ Release Contents PPM+ 19.8:

**Date Expected Live:** 02/10/2019

**Contents:** This is a major release for PPM+ across a number of areas:

Included in the 19.8 release of PPM+ are the following:

**REQ-892 Further enhancements to PAWS and NEWS2 eObservations as required (19.8)**

A further phase of observations work for 19.8

**REQ- Optimising PPM to improve performance and deliver new eForm capability (19.8)**

Work undertaken by the DBA to generally optimise and improve PPM performance and processes plus aligning upgrades to the form4health framework product with releases.

Framework enhancements will be fully tested by related products that utilise them. Otherwise the testing of both these elements is thought to be through existing functional and automation testing practices
