Contact telephone number (if different to patient's)	Address *
<input type="text"/>	<input type="text"/>

All care delivered following the death of an adult patient should be accurately recorded on the CAD form in PPM+.

This form is currently only available to complete on a laptop/desktop computer.

The use of PPM+ CAD will ensure care delivered following the death of a patient is accurately and consistently recorded.

Use the CAD form to record Verification of death (section 1), Care of the patient and those identified as important to them following the death (section 2) and Bereavement liaison office duties.
