IBD Control Assessment

Applies to: Pilot Users

We have added an *IBD Control Assessment* to be able to assess the degree of a patient's control over their disease to provide a patient-centred disease assessment tool. This can also be provided to carers and patients where appropriate to assist them in making self-care or health care-seeking decisions.

IBD Control Assessment

Mortality Review Screening Tool Improvements

Applies to: Pilot Users

We have updated the *Mortality Review Screening Tool* so clinicians can review all patient deaths via PPM+. Clinicians can determine if the patient death needs to be reviewed with the mortality review tool and share outcomes to improve learning with other specialties where appropriate.
