# ppm+ Release contents v17.2.24:

**Date Expected Live**:  Thursday 4 Jan 2018

**Contents**: V17.2.24 is a hotfix release to deploy the following in relation to MIG2:

Fix for the following menu items which did not work

- Encounters
- Medications
- Plans

The Problems and Diagnosis menu item returned two web pages as expected, however these were displayed one after the other with no obvious way of identifying which is which. This change adds two tabs in the page correctly labelled.
