

19.1-hotfix.8 PPM+ eForms Hotfix Release Contents

Date Expected Live: 28/01/2019

Contents: 19.1-hotfix.8 PPM+ eForms Hotfix is a hotfix release to deploy the following:

- Fix the missing mandatory field in the ReSPECT eFORM
- Fix the eForm as per the requirements - **Acute admission to Critical Care / Acute - the 'Action Required': Decolonisation planned to finish on the day of insertion** should not be visible
- Fix the eForm display when **Diagnosis** - K50 Crohn disease/K51 Ulcerative Colitis variant e-form, it has been observed that the PDF view of the e-form section **Extra-intestinal manifestations** - the heading and options are not clear and misleading.
- Fix the issue editing an existing 'Specialist Wound Assessment' e-form (Leg-Ulcer - Option in the Indicators and general investigation tab) for editing: the values along with the ABPI Results is not visible for editing
- Fix the issue when opening an already existing 'Specialist Wound Assessment' e-form (Leg-Ulcer - Option) for Editing: the required fields do not show up in the e-form (as in the attachment and PDF) to complete
