CLINICAL NOTE SUMMARY

VISIBILITY OF EDITS

LIVE NOW

Following the **removal of Save Draft in Clinical Note**, users can now see **at a glance** when a **Clinical Note** has been **edited** rather than having to view **each document** to check.

When viewing the **Clinical Note in the Summary Table**, if you position your cursor over the  icon in the **Clinical Note entry**, you can see when the **Clinical Note was last edited**.
Please see the example below.

Clinical Notes: Table
