And finally, LTH users can now withdraw referrals that have been sent back from the SPUR as *More Info* requested, where previously they could not.

# New Participant Details Genomics Form

**Applies to:** Pilot Users

A new *Participant Details Genomics* form has been developed as part of the 100,000 Genomes Project. Staff within the Clinical Genetics services in both Leeds and Sheffield will ask patients with certain rare diseases whether they wish to participate in this project. If the patient consents, blood samples will be taken from them and appropriate family members for Whole Genome Sequencing by Genomics England. The form has been designed to capture the data required by Genomics England to accompany these samples for research purposes. The idea is to have a repository of rare disease information for research purposes which includes both DNA and medical history data. The intention is to broaden our understanding of rare diseases for the benefit of future patients and to provide more accurate diagnoses/treatment plans for our existing patients.

Remember, you can add clinical documents to a patient's record through the **Add** button in the Single Patient View or the  in the *Action* column on the Ward Patient List.

# Initial Medical Assessment Improvements

**Applies to:** Pilot Users

The *Initial Medical Assessment* form, which currently being piloted on JAMA, has now been split into tabs on the left, allowing you to  at the end of every section. Further improving the form, we now have introduced a new *Plan* section:

The screenshot shows the 'Initial Medical Assessment' form. At the top, a purple header bar contains the patient's name 'POTATO, Morgan (Ms)', birth date 'Born 27-Jun-1895 (120y)', gender 'Gender Female', and NHS number 'NHS No. 906 505 0884'. Below this, a white bar shows the address 'Address 100 Some Street Sometown XY2 7BJ' and PAS number 'PAS No. 104031787'. On the left, a sidebar with tabs includes 'Clinical Summary', 'History', 'Examination', and 'Plan' (which is selected). The main area is divided into two sections: 'Diagnosis / Problem list' with a text input field and a note 'This Diagnosis / Problem list will form the basis of the ward Clinical Summary column wherever possible', and 'Plan' with another text input field. At the bottom, there are 'Cancel' and 'Save' buttons, and a status bar indicating 'Unsaved changes'.

## VTE Form Improvements

**Applies to:** All Users

PPM+ will no longer require you to complete a VTE form every 7 days following the initial 2 assessments.

Further, we have introduced an *Action taken* free-text box to the end of the form:

The screenshot shows the 'Action taken' section of the VTE form. It features a text input field with the placeholder text 'Action(s) taken free-text box'. Below the input field, there are three buttons: 'Cancel', 'Unsaved changes' (with a pencil icon), and 'Submit'.
