

Specialist Referrals in PPM+ for Adult Physiotherapy Inpatients is Coming Soon

From the 14th January 2026, all Adult Inpatient Physiotherapy referrals will move from using the PT Column to Specialist Referrals in PPM+.

This change standardises referral processes across Adult Physiotherapy Therapies, improves triage and reporting, and enhances patient and staff experience.

Why it matters:

- One consistent referral system for all Adult inpatient physiotherapy professions.
- Better visibility for ward teams.
- Improved data quality and audit trail.
- Supports recommendations from the Adult Therapies. External Review.
